Lady Godiva

Godiva was the wife of Leofric, Earl of Mercia. They had nine children; one son was Ælfgar. Godiva's name occurs in charters and the Domesday survey, though the spelling varies. The Old English name Godgifu or Godgyfu meant "gift of God"; 'Godiva' was the name's Latinised form. Since the name was a popular one, there are contemporaries of the same name.

Vasco da Gama
Vasco da Gama, 1st Count of Vidigueira
c. 1460s - 24 December 1524), was a Portuguese
explorer and the first European to reach India by sea.

Perhaps the best Collection

My name is Anders Dernback. I have created several thousand slideshows over the years. These do not require a teacher, but can be studied as if it were a picture book with text. Most often the subject is history. I have chosen to let more people benefit from this and read them or have students read them. They can be used for teaching purposes.

Chaplin's heart clapped for a just society - full of humor, of course.
FBI Chief J. Edgar Hoover was obsessed with protecting the United States
from the red danger, communism. The collision course was obvious, and it
became a match that would last for 30 years. A match in many rounds, in the
middle of the Cold War days. For the FBI, all funds were allowed.

History of Tourism
The word tourist was used in 1772 and tourism in 1811. It is formed from the word
tour, which is derived from Old English turian, from Old French torner, from Latin
tornare; 'to turn on a lathe,' which is itself from Ancient Greek tornos (τόρνος); 'lathe'

DEFENESTRATIONERNA I PRAG
Defenestrationerna i Prag syft
på två incidenter i Böhmens

den andra 1618. Den sistnämn
den som oftast åsyftas när ma

defenestrationer bidrog till att

Anders Dernback i Sociala Media
Anders Dernback fick ett stort intresse för ämnet historia, och även för dataprogram som Power Point. Sedan år 1970 har Anders läst mycket historia, och från 2015 börjat sprida sina bildspel ,som handlar om historia. Just finns ungefär 3 000 bildspel på olika platser på Internet. Bildspel har även blivit korta filmer på You Tube. Även i Facebook finns det bildspel. Spridningen av de första 1 000 bildspelen kom att ses av ca. 500 000 personer från 195 olika länder.
Just nu och sedan år 2015 har ca 1,4 miljoner personer sett minst ett bildspel eller filmat sådant.

BARNHEM I
SVERIGE
GRUPPBILD AV FLICKOR FRÅN FÖRENINGEN MALMÖ BARNHEM BILDAT 1865.
Under 1630-talet byggdes Stora Barnhuset vid Drottninggatan i
Stockholm.
Staden hade under början av 1600-talet många med gatubarn som
tiggde och stal. De yngsta barnen som bodde på Stora Barnhuset var
fem år. På barnhemmet fick barnen en yrkesutbildning i hantverk,
vilket blev en förutsättning för att de skulle kunna försörja sig själva.
Varje år tog Stora Barnhuset emot cirka 150 barn.

Chaplin's heart clapped for a just society - full of humor, of course.
FBI Chief J. Edgar Hoover was obsessed with protecting the United States

became a match that would last for 30 years. A match in many rounds, in the
middle of the Cold War days. For the FBI, all funds were allowed.

UNIVERSITET I STORSTAD
Hey!
Just for information!
Now my page is ready "Universitet i Storstad"
No university or library offers anything like the opportunities on this page.
550 million searchable digital objects. 30 million searchable slideshows. 1,000 free courses.
Links to over 10 million articles. My own slideshows + 3,000 can be studied.
So what you couldn't do is the same as the Library of Congress. A gigantic mistake of omission.
LoC has stored 1,000 slides (of US authorities). approx. 20 billion PPTs have been manufactured and 300 million new per year.
Power Point is the carrier of all sectors' information. The Library of Congress stored 1,000 of the share of 175 million other.
The Library of Congress hasn't even bothered to make these 1,000 Power Points searchable, so try it yourself and search: 0 is the answer.
So the question is simple to the Royal Library. How long do you want to continue with this fatal mistake year after year.
My word that comes to mind is "Embarrassing"

Sweden has had peace for 207 years
The text is obviously written at an angle to portray Sweden as a country negatively. It is easy to point out inaccuracies in objectivity. Sweden and Finland were from 1200 - 1809 a single country. Finland was the Eastern part of the country. In 1809, Sweden had lost Finland to Russia, which established a nation-state for itself, which in 1917 became an independent country. 800,000 or 10 million fictitious relationships with Swedes as a reason for connection to Finland's choice between Becoming Russia again or having a small chance of remaining independent became Finland's choice during World War II. Has nothing to do with Sweden. As for the descent of the Swedish royal family, it has no special impact. Power in Sweden was a popularly elected government. In the 1936 election, the Nazi-oriented party did not get a single member of the Swedish parliament. So the Swedish people opted out of the Nazi German party. Sweden chose between being occupied or giving in to German blackmail. Germany had plundered Sweden for resources and it had prolonged the war. Morally with the result, one can compare with the suffering in Norway, but Sweden saved about 48,000 lives with its various operations, including 7,000 Danish Jews, R. Wallenberg saved Hungarian Jews. Folke Bernadotte saved 18,000 KZ camp inmates as an example. Sweden did not exterminate the Sami (indigenous people) as the United States did systematically (Buffaloes were killed so that the indigenous people would starve to death. In California, compensation was paid for each severed head from a native who could be shown. In Sweden we were paid for rat tails.

Australopithecus afarensis, Lucy, kanske den mest berömda fossila apmänniskan
Australopithecus afarensis var en sydapa och möjlig förmänniska från Afrika, som levde för cirka 3,7 till 2,9 miljoner år sedan. Troligförfader till människan. Kallas populärt Lucy eftersom man spelade Beatles sång Lucy in the sky with diamonds under utgrävningen i Hadar i Afar-regionen i Etiopien hösten 1974, då Donald Johanson hittade de tre miljoner år gamla skelettresterna av världens mest berömda förmänniska och den viktigaste referenspunkten för dagens evolutionsforskning. Arten kallades åren 1950-1970 , med stöd av betydligt mindre välbevarade skelettrester, för "Megantropus africanus".

BATTLE OF September 17
BREITENFELD 1631
First Battle of Breitenfeld (in older texts sometimes known as Battle of Leipzig), was fought at a crossroads near Breitenfeld approximately 8 km north-west of the walled city of Leipzig on 17 September (Gregorian calendar), or 7 September (Julian calendar, in wide use at the time), 1631. It was the Protestants' first major victory of the Thirty Years War.

History of Tourism
The word tourist was used in 1772 and tourism in 1811. It is formed from the word tour, which is derived from Old English turian, from Old French torner, from Latin tornare; 'to turn on a lathe,' which is itself from Ancient Greek tornos (τόρνος); 'lathe'

Young Turks
was a political reform movement in the early 20th century that consisted of Ottoman exiles, students, civil servants, and army officers. They favoured the replacement of the Ottoman Empire's absolute monarchy with a constitutional government. Later, their leaders led a rebellion against the absolute rule of Sultan Abdul Hamid II in the 1908 Young Turk Revolution.

Silly Symphonies
Silly Symphonies (Snurriga Symfonier) är en serie av 75 amerikanska animerade kortfilmer, producerade av Walt Disney Productions under åren 1929 till 1939. Till skillnad från Disneys andra kortfilmsserie under 1930-talet, Musse Pigg, bestod Silly Symphonies huvudsakligen av helt fristående filmer, utan återkommande figurer.
Kalle Anka syntes för första gången i Silly Symphonies-filmen Den kloka hönan från 1934. Andra filmer i serien är I jultomtens verkstad som varje år visas i SVT:s Kalle Anka och hans vänner önskar God Jul, Mamma Pluto (Plutos första egna film), och filmerna om Stora Stygga Vargen och Tre små grisar. Ett flertal filmer bygger också på Aisopos fabler, och det var i en Silly Symphonies-film som Lille Hiawatha, känd från bl.a. Kalle Anka & C:o, gjorde sin debut.

Swedes (Germanic tribe)
The Swedes were a North Germanic tribe who inhabited Svealand ("land of the Swedes") in central Sweden and one of the progenitor groups of modern Swedes, along with Geats and Gutes.
The first author who wrote about the tribe is Tacitus, who in his Germania, from 98 CE mentions the Suiones. They are possibly first mentioned locally by the Kylver Stone in the 4th century. Jordanes, in the 6th century, mentions Suethans and Suetidi. Beowulf mentions the Swedes around 1000 A.D. According to early sources such as the sagas, especially Heimskringla, the Swedes were a powerful tribe whose kings claimed descendence from the god Freyr. During the Viking Age they constituted the basis of the Varangian subset, the Norsemen that travelled eastwards (see Rus' people).

Buffalo Bill Show
Wild West shows were traveling vaudeville performances in the United States and Europe that existed around 1870–1920. The shows began as theatrical stage productions and evolved into open-air shows that depicted the cowboys, Native American Indians, army scouts, outlaws, and wild animals that existed in the American West. The shows introduced many western performers and personalities, and romanticized the American frontier to a wide audience.

Skånska Cement grundades år 1871 och anlade Sveriges första cementfabrik i Lomma på initiativ av professor Otto Torell och ingenjören Otto Fahnehjelm. Genom professor Sven Lovéns förmedling kom Fahnehjelm i kontakt med professor Otto Torell i Lund. Denne hade 1869 på uppdrag av Malmöhus läns hushållningssällskap påbörjat undersökning av skånska ler- och bergarters användbarhet för industrin. Fahnehjelm fick ta över de kemiska analyserna.
1871 köpte bolaget även Limhamsgården med dess kalkbrott i Limhamn
Företaget grundades som ett direkt resultat av Otto Fahnehjelms undersökningar av de svenska kalkarterna. Fahnehjelm ritade också bolagets första byggnader. Under åren 1873 till 1907 leddes företaget av Rudolf Fredrik Berg. Cementfabriken i Lomma lades ned 1905 där man i stället anlade ett tegelbruk, i stället drev man från 1890 ett cementbruk i Limhamn.

Eric the Victorious
Eric the Victorious (Old Norse: Eirikr inn sigrsæli, Modern Swedish: Erik Segersäll; c. 945 – c. 995) was a Swedish monarch as of around 970. Since he is the first Swedish king in a consecutive regnal succession, who is attested in sources independent of each other, Sweden's list of rulers usually begins with him. His son Olof Skötkonung, however, is considered the first ruler documented to definitely have been accepted both by the original Swedes around Lake Mälaren and by the Geats around Lake Vättern, which peoples were fundamental in forming the nation of Sweden.

Charles X Gustav, also Carl Gustav (Swedish: Karl X Gustav; 8 November 1622 – 13 February 1660), was King of Sweden from 1654 until his death. He was the son of John Casimir, Count Palatine of Zweibrücken-Kleeburg and Catherine of Sweden. After his father's death he also succeeded him as Pfalzgraf. He was married to Hedwig Eleonora of Holstein-Gottorp, who bore his son and successor, Charles XI. Charles X Gustav was the second Wittelsbach king of Sweden after the childless king Christopher of Bavaria (1441–1448) and he was the first king of the Swedish Caroline era, which had its peak during the end of the reign of his son, Charles XI.

Charles XII of Sweden
Charles XII, sometimes Carl (Swedish: Karl XII) or Latinized to Carolus Rex (17 June 1682 – 30 November 1718 O.S., was the King of Sweden from 1697 to 1718. He belonged to the House of Palatinate-Zweibrücken, a branch line of the House of Wittelsbach. Charles was the only surviving son of Charles XI and Ulrika Eleonora the Elder. He assumed power, after a seven-month caretaker government, at the age of fifteen.
In 1700, a triple alliance of Denmark-Norway, Saxony-Poland-Lithuania and Russia launched a threefold attack on the Swedish protectorate of Holstein-Gottorp and provinces of Livonia and Ingria, aiming to draw advantage as the Swedish Empire was unaligned and ruled by a young and inexperienced king, thus initiating the Great Northern War. Leading the Swedish army against the alliance Charles won multiple victories despite being usually significantly outnumbered.

Malmöhus fästning
Redan under medeltiden var Malmö näst Köpenhamn Danmarks största stad. Under sillfiske- och höstmarknadstiden var Malmö den av tyska och andra utländska köpmän mest besökta staden efter Skanör och Falsterbo. Tyskarnas namn på Malmö var Elbogen. Staden var fram till vitaliebrödernas härjning 1393 en obefäst stad. Redan 1336 omtalas diken som stadsbegränsningar in mot land men arkeologiska undersökningar har visat att dessa inte haft försvarskaraktär utan snarare markerat en juridisk stadsgräns. Runt år 1400 började strandmuren uppföras, troligtvis som ett resultat av piratkrigen under 1390-talet.

Åbo Bloodbath
The Åbo Bloodbath (Swedish: Åbo blodbad) of 10 November 1599 was a public execution in the Finnish town of Turku (Åbo), then part of the Kingdom of Sweden, in the context of the War against Sigismund and the Club War. Sweden was by then in the final phase of a civil war, with one faction supporting king Sigismund III Vasa, who also was king and Grand Duke of Poland-Lithuania, and another faction supporting duke Charles of Södermanland, the later Charles IX, Sigismund's paternal uncle. After winning the upper hand in the dispute, Charles crushed the last resistance to his rule, particularly in Finland, while Sigismund had already retreated to Poland.

Sherman Antitrust Act of 1890
The Sherman Antitrust Act of 1890
(26 Stat. 209, 15 U.S.C. §§ 1–7) is a United States antitrust law that regulates competition among enterprises, which was passed by Congress under the presidency of Benjamin Harrison. It is named for Sen. John Sherman, its principal author.
The Sherman Act broadly prohibits anticompetitive agreements and unilateral conduct that monopolizes or attempts to monopolize the relevant market. The Act authorizes the Department of Justice to bring suits to enjoin (i.e. prohibit) conduct violating the Act, and additionally authorizes private parties injured by conduct violating the Act to bring suits for treble damages (i.e. three times as much money in damages as the violation cost them).

Alfred Cheney Johnston
(known as "Cheney" to his friends and associates) (April 8, 1885 – April 17, 1971) was a New York City-based photographer known for his portraits of Ziegfeld Follies showgirls as well as of actors and actresses from the worlds of stage and film.
The stock-market crash of 1929 and ensuing Great Depression—combined with several unsuccessful seasons of stage productions and a variety of messy lawsuits—devastated Flo Ziegfeld's finances, and he died in July 1932.

Unification of Italy

May 09, 2020 • 590 likes • 715 Views

was the political and social movement in the 19th century that consolidated different states of the Italian peninsula into the single state of the Kingdom of Italy in 1861. The process began with the revolutions of 1848, inspired by previous rebellions in the 1820s and 1830s that contested the outcome of the Congress of Vienna, and was completed when Rome became the capital of the Kingdom of Italy.

The Wars of the Roses were a series of English civil wars for control of the throne of England fought between supporters of two rival cadet branches of the royal House of Plantagenet: the House of Lancaster, represented by a red rose, and the House of York, represented by a white rose.
